<b>Maintenance effort by customer</b>	+ ←————— -		
<b>Cost savings</b>	- —————→ +		

**Mixed model possible (hybrid)**

# SaaS/PaaS

*The "Round the Clock Worry-Free" package for your data.*

*Not India, not China, but Switzerland. Your data are at home just around the corner. In a state-of-the-art computer centre. Personally saved and supported by our partners.*

<b>Description</b>	Complete rental (software and hardware)
<b>Features</b>	- SW licences = Rented - Hardware = Hoster - Infrastructure = Hoster - Software maintenance = Hoster
<b>Stability&amp; security</b>	Professional data centre, 24x7x365 management and support, automatic extinguisher, strict security guidelines, uninterruptible power supply supported by diesel generator. The storage system has built-in redundancy and backups are made on a daily basis
<b>Availability</b>	99% operating time, professional 4-tier data centre, server availability is guaranteed at all times
<b>Support</b>	Emergency number in urgent cases, desktop support 24x7x365, ticketing system, event tracking, qualified IT personnel available at short notice
<b>Internal know-how</b>	No internal system administrator needed
<b>Scalability</b>	T resources are scalable in terms of business development (number of employees)

The main benefits to you:

- Efficient, safe and comprehensive utilisation of the infrastructure
- A standard, portable, expandable approach to providing workloads without manual configuration or several clouds
- Agile access to cooperative infrastructure allows workloads to be provided in a demand-oriented way
- Simplified and bundled IT resources increase flexibility and control, allowing complete administration, simplified IT management and concentration on your core competences
- Cloud infrastructure with unsurpassed efficiency, agility and expandability
